## CAREER OBJECTIVE

As a Computer Science student at BINUS University with a strong foundation in Software Engineering, I have been developing applications since vocational high school through various projects, organizational activities, competitions, and internships. I am highly adaptable, experienced in collaborative environments, and eager to actively contribute to the professional technology industry with a strong passion and curiosity to grow, especially in dynamic startup environments.

## EXPERIENCE

### Research and Development, Bina Nusantara Computer Club

2025 – Present

- Active internal projects to help members improve technology capabilities and active collaboration.
- Lead knowledge-sharing sessions and contribute to continuous learning through technical discussions and inter-divisional innovation.

### Core Team Participant, Lab Curiosity Competition Team

2025 – Present

- Actively contributed to solution development in university-level data and technology competitions.
- Strengthened soft skills including teamwork, adaptability, and cross-departmental communication.

### Full Stack Programmer Intern, WIT.ID

Jul 2025 – Sept 2025

- Contributed to the development of full-stack internal web applications using microservices
- Gain new experience by contributing to projects and learning new things to improve soft and hard skills

### Software and Technician Engineer Intern, PT Aplikasiusa Lintasarta

Jan 2024 – May 2024

- Assisting in IT infrastructure maintenance and hardware/software system troubleshooting.
- Apply programming knowledge and teamwork to provide IT support across various departments and external clients.
- Gain experience in a professional environment and workflow coordination.

## EDUCATION

### Bachelor's Degree of Computer Science | Bina Nusantara University

2024 - Present

- GPA: 3.67 / 4.00

### Vocational High School of Software Engineering | SMK Negeri 1 Cimahi

2021 – 2024

- Final Average Score: 87 / 100
